Dear Friends and Cattlemen,

Welcome to our 2016 Production Sale on February 13, 2016 at the farm. Thanks for taking the time to look at our operation, breeding program and the bulls and females we are offering this year. We have been fortunate to have accumulated a tremendous customer base and feel so privileged to have so many return customers. We have used the best genetics available to build our herd. The AI and embryo transfer programs have allowed us to produce cattle that will benefit our purebred and commercial customers.

We invite you to be with us for lunch. The sale cattle will be available for inspection and our crew will be pleased to show you around. If we can assist you in anyway, please call. The cattle will be available to be picked up on sale day after the sale, or we will be happy to help you make delivery arrangements, if you let us know.

Billy, Mark & Ricky McLeod and Melissa Bradshaw - Owners

Jon Ripstein - Cattle Manager

## **Black Crest Farms' Bull Breeding Guarantee**

Black Crest Farms guarantees that all bulls sold in this sale have passed a complete breeding soundness exam performed by a qualified person, are fertile and should breed cows to the best of our knowledge.

All bulls need proper nutrition prior to, during and after the breeding season, so they can maintain strength and condition plus grow out properly. Observe bulls closely and make sure they are serving and settling cows. We recommend that you not allow them to get too thin at any time. If you are concerned, please contact us immediately, so we can help insure your success.

The number of cows a young bull is exposed to should be governed by his age at the start of the breeding season.

### **Bull's Age**

15 months – 15 cows  
18 months – 18 cows  
24 months – 24 cows
